

## UNADDRESSED POLICY PAPER ISSUES

- Infrastructure should be regionally planned and coordinated, implemented, maintained, budgeted and funded.**
- More equitable use of impact fees as a tool for improving transportation networks.**
- Traffic impact studies should have a wider scope based on the community's strategic comprehensive plan.**
- Career planning information must be fully integrated into middle and senior high school curriculums.**
- Develop outreach programs to increase minority participation in workforce training, particularly in Lancaster City.**
- Smart Growth protects and enhances valuable natural and cultural resources while minimizing impact.**
- A healthy and sufficiently available water supply is necessary for growth.**
- Access to clean water for recreation is a vital part of smart growth.**
- Educators and employers must coordinate and increase internship/apprentice programs for high school students.**
